

*Empower your schools to tackle behavior challenges before they escalate. ION provides real-time behavior tracking, allowing you to quickly identify patterns, intervene early, and promote positive behavior across your district. With data-driven insights, you can reduce disciplinary actions and help students stay engaged and on track.*

# TURN BEHAVIOR DATA INTO POSITIVE CHANGE

*ion's behavior management tools provide the real-time data and insights you need to address behavior issues early, while reinforcing positive actions. With a complete view of student behavior trends, you can make informed decisions that promote engagement, reduce disciplinary actions, and create lasting change in your schools.*

## TRACK BEHAVIOR JUST IN TIME

ion captures behavior incidents in near real-time, giving you instant access to a complete record of positive and negative behaviors across the district.

## ANALYZE AND SPOT TRENDS

Identify patterns in student behavior, from repeat incidents to emerging issues. ION helps you quickly see where interventions are needed, whether at the individual, classroom, or school level.

## CUSTOMIZE & IMPLEMENT INTERVENTIONS

Design and deploy targeted interventions that address behavior issues before they escalate. Work with teachers and staff to provide the support students need to improve.

## MONITOR & PROMOTE POSITIVE BEHAVIOR

Track the success of your interventions over time and encourage positive behavior with data-driven insights that help reduce incidents and create a more positive school culture.
